

BENTLEY BENTAYGA

Romeo Ferraris
Style is a matter of Performance

BENTLEY BENTAYGA

Bentayga is unlike any other sport utility vehicle in the world. This powerful, all-terrain, all-purpose car offers an exceptional driving experience. As well as having the most technically advanced engine in its category, it has Mulliner Driving Specification fitted as standard and a choice of more paint colours than any other SUV.

Bentayga brings together outstanding performance and unparalleled levels of luxury on and off-road.

The Kahn Design Bentley Bentayga combines the proud heritage of the Bentley brand with a contemporary approach to producing a stylish and exclusive vehicle.

Driven by a desire to design a sporting iteration of this highly desirable vehicle, Afzal Kahn went back to the drawing board to develop a radical new look that deviates from Bentley's traditional styling.

Giving the Volcanic Rock Satin Kahn Bentayga a fresh, sporty appearance is a new Kahn front bumper spoiler, Kahn rear boot wing and front grille that creates an athletic look and further adds to the car's impressive road presence.

Muscular front and rear bumper wrap-arounds detailed in shadow satin gives the car a dynamic edge.

Please be advised, Kahn Design offers a contemporary interior styling Package as well. The Bentayga Kahn edition has a full interior-styling upgrade. Step inside and one will find a Kahn 3D Herringbone black perforated leather interior. A Kahn leather steering wheel, door panels and door handle surrounds in high gloss shadow, provide a superb driving experience. Customers can choose from an almost limitless array of leather colours, fabrics, and finishes to create a truly unique interior. For those looking for the most exclusive interior, Kahn Design will finish the cabin in a custom quilted nappa leather and alcantara system.

The entire styling package that will transform the Bentley Bentayga is currently available. Optionally, Kahn design also offers individual accessories.

Wheels

Completing the powerful and dynamic overhaul of the vehicle are the exciting 10x23" Diamond Mirror on Gloss Black Le Mans wheels, designed by Afzal Kahn to make the Bentley look incredible and enhance the overall driving experience.

Each wheel is built to accommodate the Bentley centre caps for a complete appearance. Further accentuating the wheels is a new adjustable lowering module that allows customers to create the perfect stance or achieve a responsive ride.
